Bipanshu

Riya

As a beginner, a lot of things are new to me and pretty challenging, some plain make no sense. However, they are very patient and they take the time to explain and answer any questions I have. I don't feel like a complete moron when I make a mistake either! They are very encouraging and supportive.

Ritika

They are incredible. They have created thoughtful content that challenges students while keeping it engaging and relevant. They knows how to evaluate your skill set and place you in a class of other similarly skilled students and really proud to be a student of this prestigious university.

Tanvi

Somya

They are amazing at what they do! Their passion and dedication is beyond words! Thank you all for getting us through this hard quick semester, I honestly would have never passed if it was not for your help! Statistics to a whole other level! Thank you so much once again. I really appreciate their work and dedication towards there teaching.

I have learned so much in my classes with the faculty. They pace the class just right so you feel challenged but not overwhelmed. So many other classes you just read from a text book but in there classes they asks questions and gets the students to respond which is both fun and promotes faster learning. They are patient and eager to help. I'm thrilled to have found them in class.

MONIKA Kumari, a second-year M.Tech student of Indira Gandhi Technical University for Women (IGDTUW), became the first woman in India to get the Financial Services Information Sharing Analysis Center (FS-ISAC) Cyber Security scholarship worth USD 10,000.

The scholarship was launched by FS-ISAC, an industry consortium dedicated to reducing cyber-risk in the global financial system, back in 2016 to support financially and mentor young women in the field of cyber security.

Every year FS-ISAC selects 14 women throughout the world and mentors them to reach great heights in their career. Monika is the first from the city to bag this illustrious scholarship for budding social security enthusiasts.

Sharing her experience, the 25-year-old student of Information Security Management said, "I am very happy and overwhelmed by this development. It is personally a great experience for me as FS-ISAC is a recognised platform on the global stage. Apart from the scholarship, I also get a chance to go abroad and work under great mentors
