Department of Electronics and Communication Engineering

Interactive Talk on Navigating the placement maze

The Internship Cum Placement Session held on March 13, 2024, at IGDTUW, was meticulously organized by the Department of Electronics and Communication Engineering (ECE) in collaboration with the Training and Placement Department (TNP). This session was designed to bridge the gap between academic knowledge and industry requirements. A total of 80 students of third-year B.Tech ECE AI -2 students from the ECE department attended the session with enthusiasm and actively participated in the discussions and activities. The session commenced with an overview of the objectives by Ms. Ramsha Suhail, ECE TNP Faculty Coordinator emphasizing the significance of internships in shaping career paths and preparing students for the dynamic job market. It aimed to provide insights into emerging trends, skill requirements, and career opportunities within the field of Electronics and Communication Engineering. The Internship Cum Placement Session served as a beacon of empowerment and enlightenment for ECE students at IGDTUW, marking a significant milestone in their journey towards professional excellence. By fostering collaboration between academia and industry, the session aimed to sculpt a cohort of professionals equipped to drive technological innovation and societal transformation. Key Highlights:

- Internship Opportunities: The session provided comprehensive information about various internship opportunities available in the field of ECE, enabling students to explore and apply for internships aligned with their interests and career goals.
- Career Path Insights: Students gained valuable insights into potential career paths within the industry, including job prospects and avenues for professional growth, thereby empowering them to make informed decisions about their future endeavors.
- Networking Opportunities: The event facilitated networking between students and potential employers, fostering meaningful connections that could lead to internship placements or future employment opportunities.
- Recruitment Process Preparation: Students were equipped with essential skills and knowledge to navigate the recruitment process effectively, including resume-building techniques, interview preparation, and enhancing their overall employability skills.

She actively engaged with students, boosting their confidence and preparing them for the upcoming placement session, leaving a lasting impact on their preparedness and enthusiasm. By fostering collaboration between academia and industry, the session aimed to sculpt a cohort of professionals equipped to drive technological innovation and societal transformation.
